Ultrasonic Sealed Gloves "FPG"

The innovative ultrasonic sealed gloves machine used for the production of gloves, the entire production is fully automated, time saving and produces stable quality products.

The product can be based on user needs, a production of multiple gloves at the same time, the efficiency can be increased several times.

It is equipped with CNC program control and automatic tension control system. Moreover, the machine is made up of aluminum alloy structure, sturdy and perfect.

High-quality electronic control system to ensure continuous operation, especially for customer's mass production.

Advantages

- More focus on quality
- Stain free
- Oil Free
- Ink Free
- Hair free
- Best suitable for food processing/food handling
- Time saving
- No Size Variation

Production Capacity 2.5 Million Pairs/Month

The ultrasonic sealed & cut machine production capacity is 2.5 Million Pairs/Month for year 2019.

Next year will be adding 1.5 Million pairs/ Month

UNIQUE AS YOU ARE

PROFECTUS FASHIONS (PVT) LTD.
UNIQUE AS YOU ARE

Thanks for visiting our catalogue we hope you had enjoyed our catalogue in which we tried to describe our company completely including profile, certificates and products etc.

Our preference is to do business in a long run relationship.

We describe our feeling in simple words as

“Work with the customers in such a way that they feel as their own production in Pakistan named Profectus ”

Hopefully looking forward to see your co-operation
